User Stories

"One of the greatest advantages of Animation Desk is its intuitive design, we can't emphasize enough how important that is to designers and animators. I love the interface and portability Animation allows, because it is so intuitive and clean, and with the tablet I can carry all my animations to places and animate!"

Alejandro Garcia
Graphic Designer from Colombia

"I can do editing on the go and instantly share with my social network all with my fingertips, without ever leaving the app."

Bella Lou
Model

User Stories

Unlike cork-board apps such as Pinterest or Trello, NoteLedge allows me to interact with the images on the page to do the things I need to do to get to the point of creating something new.

Cherry Jeffs
Mixed-Media Artist

"Personally I tend to get exasperated when reading through large blocks of text online but being able to markup the text directly in my browser has helped a lot in my comprehension."

Krista Chen
Student at Pennsylvania State University
